
6

On the left triangular flap, refold on the three existing creases

- you are pinching the right angle corner of the flap in half
until it protrudes and stands upright. Flatten this new flap downward

Flip the small flap up and then down again.

10

Stand the small flap upright, and then squash-fold to a small kite shape.

12

Repeat steps 4 through 11 on the right.

9

Fold the small folded edge to the horizontal crease and unfold.

11

Blunt the left tip of the kite shape with a small mountain fold.

Unfold the left and right flaps.

Fold the corners in to meet the center.

Fold back the upper flap.
